

HYCON HCS20 CUT-OFF SAW

PRODUCT FEATURES

The HYCON PREMIUM Cut-off Saw cuts all types of concrete, steel, brick wall, asphalt etc. The HYCON Cut-off saw is a very sturdy tool intended for cutting even under the most extreme conditions. It is completely unaffected by water and dust, and all parts run in oil. The HYCON PREMIUM-saws are build for hard use day after day - without breakdowns.

The fact, that the saw is always working and does not require service means higher profits than with e.g. a petrol saw.

The saw stops automatically if the blade jams because of the system pressure relief valve. The blade stops rotating maximum 10 sec. after releasing the trigger. Assuring no injury to the operator. The hydraulic cut-off saw from HYCON can be used for horizontal and vertical cutting.

Hydraulic direct drive high quality motor assume a minimum of service. Flushing water runs through body and hydraulic motor for extra cooling and to keep all surfaces cold.

HYDRAULIC CUT-OFF SAW HCS20

Item no. HCS20, 30-40 l.p.m	3030500
Disc size, mm	ø500
Oil Flow, lpm	30-40
Working Pressure, bar	120
Max pressure, bar	172
Weight w/o hose/disc, kg	9.2
Cutting depth, mm	212
Noise level LPA dB	99
Noise level LWA dB	110
Vibration level, m/s	<2.5
Periferial blade cutting speed, m/s	59

Optional Dust suppression kit
Item no. 3030051
